

## PRESS RELEASE

## Perfect PDF® Family: Version 10 of Soft Xpansion's PDF and print solutions available

(Bochum, September 19, 2017) – Soft Xpansion has launched version 10 of the three products of its Perfect PDF® family: the *Premium* edition is a complete solution for the creation, conversion, editing, commenting, encryption and digital signing of PDF, PDF/A and XPS files. The product suite *Perfect PDF® & Print 10* comes with *Perfect PDF® 10 Premium* and additionally includes a separate application to design print output on paper professionally - *Perfect Print*. This program standardizes and unifies the content design from different source applications (for example word processing, graphical software or CAD solutions) in one single printing project. In this project, potential limitations of the source applications' printing capabilities are eliminated. The *Converter* is focused on the creation of PDF and PDF/A files from any printable content.

*Perfect PDF® & Print 10* is only available as download, while the two other applications are also sold on CD-ROM. The exclusive distributor of the CD-ROM versions is Markt+Technik Verlag GmbH. They sell via various online web shops and retail stores in Europe and in the US.

*Perfect PDF® & Print 10* and *Perfect PDF® 10 Premium* users who need a license for at least 10 workstations may order a network license. It allows them to install and use the products simultaneously on multiple PCs without having to activate them on each workstation (centralized license management on a server). Installation and use may be done via Citrix or Terminal Server, in a virtual instance of Windows via a VMware host and over multiple remote desktop connections.

## NEW FEATURES AT A GLANCE

- Language switching (English, German, French, Italian) in installed program
- Advanced Office 2016 support
- Uses most recent version of PDF engine (PDF SDK version 12)
- Improved Performance for rendering and display of PDF documents
